- Made From Solid Roller, Solid Bushing Chain
- Available With Connecting Link Or Single Pin Connector
- Custom Sizes Available

HKK coupling chains are made from our high quality solid roller, solid bushing chains. Manufactured to our own tough standards, they supply the strength and cost efficiency needed for most coupling applications. Standard coupling chains are assembled using a standard connecting link. Single pin connectors are also available. Most common sizes are in stock; many large size coupling chains can be made to order. First numbers designates chain size; second set of numbers designates length.

Size	Pitch	Length	Weight
HKK 35-20	3/8	7.5	0.3
HKK 35-22		8.25	0.3
HKK 40-12	1/2	6.0	0.4
HKK 40-16		8.0	0.5
HKK 40-18		9.0	0.6
HKK 40-20		10.0	0.7
HKK 40-22		11.0	0.8
HKK 50-16		5/8	10.0
HKK 50-18	11.25		1.3
HKK 60-16	3/4	12.0	2.0
HKK 60-18		13.5	2.2
HKK 60-20		15.0	2.5
